👤 <https://pranavpise.netlify.app/>

Innovative Full-Stack Developer with a strong passion for creating efficient, scalable, and user-centric web applications. Specializes in JavaScript, React.js, and modern web technologies, with proven experience in both frontend and backend development. Seeking opportunities to contribute technical expertise and problem-solving skills to a dynamic development team.

Professional Experience

Business Web Solutions

Oct 2022 - Dec 2022

Full-Stack Web Developer Intern

Remote

- Developed and maintained several full-stack web applications, leveraging technologies such as React.js, Node.js, Python, and PostgreSQL.
- Optimized performance of web applications, reducing load times by 30% and improving overall user experience.
- Collaborated with cross-functional teams to integrate complex backend systems, enhancing the efficiency of client-side interactions.

Space Club, Rajarambapu Institute of Technology

June 2022 - June 2023

Technical Team Member

Urun Islampur, India

- Designed and implemented rocket structures and aviation systems using advanced aerodynamics software (OpenRocket).
- Integrated computer science concepts into avionics subsystems, contributing to the successful launch and testing of prototypes.
- Led a project team in researching and developing new designs, improving the stability and performance of rocket prototypes by 15%.

Projects

MoodTracker

<https://thecaptain-moodtracker.vercel.app/>

- Developed a full-stack Mood Tracker application using Next.js and React.js, enabling users to log and monitor their daily mood over time.
- Implemented a user-friendly interface with responsive design, ensuring accessibility across various devices.

SwoleNormous: A Fitness Application

<https://thecaptain-swolenormous.netlify.app/>

- Built a fitness-focused web application using React.js, designed to help users track and plan their workout routines and nutrition.
- Designed an intuitive, responsive interface that offers a seamless user experience across all devices.

Education

Rajarambapu Institute of Technology

Nov 2021 - Present

B. Tech in Computer Science Engineering

Urun Islampur, India

- Specialization: Software development, web technologies, and computer science principles.

Skills

Frontend	HTML, CSS, JavaScript, React.js
Backend	Node.js, Python
Databases	MySQL, MongoDB, NoSQL, PostgreSQL
Tools	Git, Vite
