Pranav Pise

Software Development Engineer

+91 7028351925 itspranavpise@gmail.com Pune, India in/pranavpise github.com/thecaptain1810 X portfolio/pranavpise

Profile

Innovative Full-Stack Developer with a strong passion for creating e cient, scalable, and user-centric web applications. Specializes in JavaScript, React.js, and modern web technologies, with proven experience in both frontend and backend development. Seeking opportunities to contribute technical expertise and problem-solving skills to a dynamic development team.

Areas of Expertise

Full-Stack Development - MERN Stack - React.js - Next.js - Node.js - Express.js - MongoDB - JavaScript - TypeScript - Responsive Web Design - Database Management - Code Optimization - Git Version Control - User Interface Design

Professional Experience

SDE Intern, (nCircle Tech)

Pune, MH 01/2025 - present

- Collaborated with cross-functional teams to design, develop, and deploy responsive and scalable web applications.
- Developed front-end interfaces using modern frameworks to ensure seamless and intuitive user experiences.
- Worked on back-end services and APIs to provide robust functionality and secure data management.

Coding Expert for AI Training, (Outlier)

Remote 10/2024 - 01/2025

- Collaborated with global AI teams to enhance large language models by providing expert feedback on code quality and functionality, improving model accuracy for real-world applications.
- Collaborated on various Al-driven educational projects to enhance the performance of math learning systems.
- Conducted rigorous assessments and evaluations to improve AI models, ensuring precise mathematical problem-solving capabilities.

Full-Stack Web Dev Intern, (Business Web Solutions)

Remote 03/2023 - 12/2023

- Developed and maintained several full-stack web applications, leveraging technologies such as React.js, Node.js, Python, and PostgreSQL.
- Optimized performance of web applications, reducing load times by 30% and improving overall user experience.
- Collaborated with cross-functional teams to integrate complex backend systems, enhancing the efficiency of client-side interactions.

Online Courses & Certifications

- Legacy JavaScript Algorithms and Data Structures (Apr. 2024) FreeCodeCamp
- Front End Development Libraries (June 2024) FreeCodeCamp
- Back End Development and APIs (June 2024) FreeCodeCamp
- MongoDB Node.js Developer Path (Dec. 2024) MongoDB
- GitHub Foundations (Dec. 2024) GitHub, Credly
- MongoDB Data Modeling Path (Jan. 2025) MongoDB

Education

BTech Computer Engineering Rajarambapu Institute of Technology

Sakhrale, India 2020-2024

Relevant Courses: Software Engineering, System Software, Network Administration, Cloud Computing, Web Development, Object-Oriented Programming, Compiler Design, Computer Organization, Mobile App Development, Finite Automaton, Data Structures and Algorithms

Skills

Full-Stack Development, Databases: MongoDB, PostgreSQL, Team Collaboration, Problem Solving
